FRCC 2007 COMPLIANCE PROGRAM

SELF-CERTIFICATION SIGNATURE PAGE

FOR FRCC REGISTERED ENTITY COMPLIANCE WITH NERC RELIABILITY STANDARDS

FRCC Registered Entities are to self-certify that they are in compliance with the NERC Reliability Standards that are included in the 2007 Actively Monitored NERC Standards. Please refer to the 2007 Actively Monitored NERC Standards, to review all Reliability Standards Requirements and Measurements that are included in the 2007 NERC Compliance Program.

All entities performing functions as defined in the Reliability Standards will complete and submit the appropriate Regional self-certification forms, indicating their compliance or level of non-compliance with the requirements of the individual standards for the **period from January 1, 2007 to December 31, 2007**. Compliance reporting for Standards that have an **effective date after January 1, 2007** shall be based on that Standards **effective date through December 31, 2007**. The Reliability Impact of any reports of non-compliance are to be noted in the Mitigation Plan.

This fully completed self-certification package including any required Mitigation Plans are due no later than December 17, 2007 to the FRCC office.

(Any changes to the self-certification status that occurs between December 18 and December 30, 2007 need to be reported to the FRCC office by January 11, 2007).

I. Compliance Features

1. The returned Self-Certification Forms will be kept confidential by FRCC.
2. Documentation that supports compliance or a non-compliance level must to be retained for a minimum of three (3) years and be available to FRCC review within five (5) business days.
3. The FRCC will conduct audits and random checks to verify compliance.

II. Mitigation Plans and Schedules

1. If levels of non-compliance are indicated on any of the Self-Certification Forms, Mitigation Plans including a detailed implementation schedule to achieve full compliance **must be provided with your response.**

III. FRCC Registered Entity Identification and Execution

Please complete the information requested below including the signature of the person responsible for certifying the Registered Entity's level of compliance and, as applicable, responses to the accompanying Self-Certification Forms and Mitigation Plans. Please fax or mail in the original executed signature page.

Reporting Entity: New Hope Power Partnership

Certifying Employee: Jose Gonzalez

Title: Plant Manager

Authorized Signature: _____

Phone: 561-993-1001 E-mail: Jose_Gonzalez@Floridacrystals .com Date of Reporting: 12/17/07

IV. Submittal to FRCC:

1. **Please email (preferred), mail, or fax the completed Self-Certification Forms with applicable Mitigation Plans and Schedules to: compliancemanager@frcc.com**

2. **Please fax or mail in the executed Signature Page to the address below:**

   Florida Reliability Coordinating Council
   1408 N. Westshore Blvd., Suite 1002
   Tampa, FL 33607-4512
   Attn: Compliance Department

If you have any questions regarding this self-certification, please contact:

I. Reliability Standard

TITLE

Facility Ratings Methodology

PURPOSE

To ensure that Facility Ratings used in the reliable planning and operation of the Bulk Electric System (BES) are determined based on an established methodology or methodologies.

APPLICABILITY

- Transmission Owner
- Generator Owner

REQUIREMENTS

R1. The Transmission Owner and Generator Owner shall each document its current methodology used for developing Facility Ratings (Facility Ratings Methodology) of its solely and jointly owned Facilities. The methodology shall include all of the following:
R1.1. A statement that a Facility Rating shall equal the most limiting applicable Equipment Rating of the individual equipment that comprises that Facility.

R1.2. The method by which the Rating (of major BES equipment that comprises a Facility) is determined.

R1.2.1. The scope of equipment addressed shall include, but not be limited to, generators, transmission conductors, transformers, relay protective devices, terminal equipment, and series and shunt compensation devices.

R1.2.2. The scope of Ratings addressed shall include, as a minimum, both Normal and Emergency Ratings.

R1.3. Consideration of the following:

R1.3.1. Ratings provided by equipment manufacturers.

R1.3.2. Design criteria (e.g., including applicable references to industry Rating practices such as manufacturer's warranty, IEEE, ANSI or other standards)

R1.3.3. Ambient conditions.

R1.3.4. Operating limitations.

R1.3.5. Other assumptions.

R2. The Transmission Owner and Generator Owner shall each make its Facility Ratings Methodology available for inspection and technical review by those Reliability Coordinators, Transmission Operators, Transmission Planners, and Planning Authorities that have responsibility for the area in which the associated Facilities are located, within 15 business days of receipt of a request.

R3. If a Reliability Coordinator, Transmission Operator, Transmission Planner, or Planning Authority provides written comments on its technical review of a Transmission Owner's or Generator Owner's Facility Ratings Methodology, the Transmission Owner or Generator Owner shall provide a written response to that commenting entity within 45 calendar days of receipt of those comments. The response shall indicate whether a change will be made to the Facility Ratings Methodology and, if no change will be made to that Facility Ratings Methodology, the reason why.

MEASURES

M1. The Transmission Owner and Generator Owner shall each have a documented Facility Ratings Methodology that includes all of the items identified in FAC-008 Requirement 1.1 through FAC-008 Requirement 1.3.5.

M2. The Transmission Owner and Generator Owner shall each have evidence it made its Facility Ratings Methodology available for inspection within 15 business days of a request as follows:

M2.1 The Reliability Coordinator shall have access to the Facility Ratings Methodologies used for Rating Facilities in its Reliability Coordinator Area.

M2.2 The Transmission Operator shall have access to the Facility Ratings Methodologies used for Rating Facilities in its portion of the Reliability Coordinator Area.

M2.3 The Transmission Planner shall have access to the Facility Ratings Methodologies used for Rating Facilities in its Transmission Planning Area.

M2.4 The Planning Authority shall have access to the Facility Ratings Methodologies used for Rating Facilities in its Planning Authority Area.

M3. If the Reliability Coordinator, Transmission Operator, Transmission Planner, or Planning Authority provides documented comments on its technical review of a Transmission Owner's or Generator Owner's Facility Ratings Methodology, the Transmission Owner or Generator Owner shall have evidence that it provided a written response to that commenting entity within 45 calendar days of receipt of those comments. The response shall indicate whether a change will be made to the Facility Ratings Methodology and, if no change will be made to that Facility Ratings Methodology, the reason why.

II. Compliance Identification

Please read carefully the following descriptions of full compliance and levels of non-compliance and indicate which most closely applies to your organization by checking the appropriate box.

☐ **Full Compliance –** All applicable requirements have been addressed as required.

☐ **Standard Not Applicable –** Please provide below a brief explanation of why this standard is not applicable.

Levels of Non-Compliance:

☒ **Level 1:** There shall be a level one non-compliance if **<u>any</u>** of the following conditions exists:

- The Facility Ratings Methodology does not contain a statement that a Facility Rating shall equal the most limiting applicable Equipment Rating of the individual equipment that comprises that Facility.
- The Facility Ratings Methodology does not address one of the required equipment types identified in FAC-008 R1.2.1.
- No evidence of responses to a Reliability Coordinator's, Transmission Operator, Transmission Planner, or Planning Authority's comments on the Facility Ratings Methodology.

☐ **Level 2:** The Facility Ratings Methodology is missing the assumptions used to determine Facility Ratings or does not address two of the required equipment types identified in FAC-008 R1.2.1.

☐ **Level 3:** The Facility Ratings Methodology does not address three of the required equipment types identified in FAC-008-1 R1.2.1.

☐ **Level 4:** The Facility Ratings Methodology does not address both Normal and Emergency Ratings or the Facility Ratings Methodology was not made available for inspection within 15 business days of receipt of a request.

III. Mitigation Plans

For any levels of Non-Compliance reported, please complete a <u>separate</u> Mitigation Plan for each Reliability Standard using the standard FRCC Mitigation Plan Template.

☒ Mitigation Plan Included If Required (to be filed with the FRCC by January 31, 2008)

Mr. Matthew Capone
Okeelanta Cogeneration Plant
New Hope Power Company
PO Box 9
South Bay, FL 33493

Re: Notice of Proposed Expedited Disposition of Pending Violations or Alleged Violations

Dear Mr. Capone,

This letter is giving notice that Florida Reliability Coordinating Council, Inc. proposes expedited disposition of the pending violations or alleged violations listed in **Attachment B**. **Please review the information below and respond in writing no later than five (5) days from the date of this Notice.** Responses should be directed to Barry Pagel, Manager of Compliance, at compliancemanger@frcc.com. If you have questions, please call Richard Gilbert at 813-207-7991 or Barry Pagel at 813-207-7968.

Florida Reliability Coordinating Council, Inc. intends to submit to the North American Electric Reliability Corporation ("NERC") for filing with the Federal Energy Regulatory Commission ("FERC" or "Commission") a request to expedite resolution of the pending violations or alleged violations listed in **Attachment B** and to accept disposition of these violations or alleged violations under the terms of the Agreement in **Attachment A** hereto, based on the following factors:

- The violations did not pose a serious or substantial risk to system reliability.
- The violations occurred, and were reported to or identified by Florida Reliability Coordinating Council, Inc., prior to July 3. 2008.
- The violations have been mitigated with mitigation plan completion verified by Florida Reliability Coordinating Council, Inc. or the violations are being

mitigated under the terms of a mitigation plan that has been approved by Florida Reliability Coordinating Council, Inc. and NERC.

This proposed expedited disposition will result in the assessment of the penalty identified for each of the respective violations listed in **Attachment B** if this disposition is accepted by New Hope Power Company (formerly known as New Hope Power Partnership) and approved by NERC and FERC.

If New Hope Power Company accepts this proposed expedited disposition, sign the attached Agreement and return it to Florida Reliability Coordinating Council, Inc. within five **(5) days** after the date of this Notice. ***If New Hope Power Company does not wish to accept this proposed expedited disposition, sign the attached OPT OUT ATTACHMENT A1 and return it to Florida Reliability Coordinating Council, Inc. within five (5) days after the date of this Notice.***

Sincerely,

Barry G. Pagel
Manager of Compliance

ATTACHMENT A

AGREEMENT

New Hope Power Company (formerly known as New Hope Power Partnership) and Florida Reliability Coordinating Council, Inc. agree to the following:

1. Acceptance of this Agreement results in the assessment of $ 0.00 (zero dollars) for the violations listed in **Attachment B**, subject to approval by the North American Electric Reliability Corporation ("NERC") and the Federal Energy Regulatory Commission ("FERC" or "Commission"). For monetary penalty payments the Florida Reliability Coordinating Council, Inc. will send an invoice to the New Hope Power Company within thirty-one (31) days after the Agreement is either approved by the Commission or is rendered effective by operation of law. Payment of this invoice must be made by check or by wire transfer to a Florida Reliability Coordinating Council, Inc. account outlined in the invoice within thirty-one (31) days after the receipt of the invoice. Florida Reliability Coordinating Council, Inc. shall notify NERC and NERC shall notify the Commission if the payment is not received.

2. The violations listed in **Attachment B** will be considered Confirmed Violations for all purposes and may be used as aggravating factors in accordance with the NERC Sanction Guidelines for determining appropriate monetary penalties or sanctions for future violations.

3. New Hope Power Company attests there have been no repeat occurrences of the violations listed in **Attachment B** as of the date of this attestation.

4. If New Hope Power Company does not make the monetary penalty payment above at the times agreed by the parties, interest payable to Florida Reliability Coordinating Council, Inc. will begin to accrue pursuant to the Commission's regulations at 18 C.F.R. § 35.19(a)(2)(iii) from the date that payment is due, in addition to the penalty specified above.

5. In the event New Hope Power Company fails to make the monetary penalty payment set forth below, Florida Reliability Coordinating Council, Inc. will initiate enforcement, penalty, or sanction actions against New Hope Power Company to the maximum extent allowed by the NERC Rules of Procedure, up to the maximum statutorily allowed penalty. Except as otherwise specified in this Disposition Agreement, New Hope Power Company shall retain all rights to defend against such enforcement actions, also according to the NERC Rules of Procedure.

6. The expedited disposition agreed to herein represents a full and final disposition of the violations listed in **Attachment B**, subject to approval by NERC and FERC.

Mitigation Plan

For Public Release - October 14, 2009

FRCC
Florida Reliability Coordinating Council, Inc.

Mitigation Plan Submittal Form

Date this Mitigation Plan is being submitted: 03-14-2008

Section A: Compliance Notices & Mitigation Plan Requirements

A.1 Notices and requirements applicable to Mitigation Plans and this Submittal Form are set forth in "Attachment A - Compliance Notices & Mitigation Plan Requirements" to this form.

A.2 ☒ I have reviewed Attachment A and understand that this Mitigation Plan Submittal Form will not be accepted unless this box is checked.

Section B: Registered Entity Information

B.1 Identify your organization:

Company Name: New Hope Power Partnership
Company Address: 8001 Hwy 27 South, South Bay, FL, 33411
NERC Compliance Registry ID: NCR-00051

B.2 Identify the individual in your organization who will be the Entity Contact regarding this Mitigation Plan.

Name: James M. Meriwether
Title: Environmental and Safety Manager
Email: James_Meriwether@Floirdacrystals.com
Phone: (561) 993-1003

Section C: Identification of Alleged or Confirmed Violation(s) Associated with this Mitigation Plan

C.1 This Mitigation Plan is associated with the following Alleged or Confirmed violation(s) of the reliability standard listed below.

For Public Release - October 14, 2009

Applicable Standard, Requirement(s) and dates:

NERC Violation ID #	Reliability Standard	Requirement Number	Violation Risk Factor	Alleged or Confirmed Violation Date(*)	Method of Detection (*e.g.*, Audit, Self-report, Investigation)
	FAC-008	R1	Medium	03/14/08	Self-Report

(*) Note: The Alleged or Confirmed Violation Date shall be expressly specified by Registered Entity, and subject to modification by the FRCC, as: (i) the date the Alleged or Confirmed violation occurred; (ii) the date that the Alleged or Confirmed violation was self-reported; or (iii) the date that the Alleged or Confirmed violation has been deemed to have occurred on by the FRCC. Questions regarding the date to use should be directed to the FRCC contact identified in Section G of this form.

C.2 Identify the cause of the Alleged or Confirmed violation(s) identified above. Additional detailed information may be provided as an attachment:

New Hope is undergoing activities at this time to develop compliance procedures for the first time in our history. We recognize that we are behind schedule in the development of procedures and other documents that are needed for compliance, and reported this condition. We do not currently have a documented Facility Rating Methodology.

C.3 Provide any additional relevant information regarding the Alleged or Confirmed violations associated with this Mitigation Plan. Additional detailed information may be provided as an attachment:

Section D: Details of Proposed Mitigation Plan

Mitigation Plan Contents

D.1 Identify and describe the action plan, including specific tasks and actions that your organization is proposing to undertake, or which it undertook if this

For Public Release - October 14, 2009

Mitigation Plan has been completed, to correct the Alleged or Confirmed violations identified above in Part C.1 of this form. Additional detailed information may be provided as an attachment:

New Hope has retained the services of a consultant to assist in developing the necessary methodology and establishing ratings for our equipment.

Mitigation Plan Timeline and Milestones

D.2 Provide the date by which full implementation of the Mitigation Plan will be, or has been, completed with respect to the Alleged or Confirmed violations identified above. State whether the Mitigation Plan has been fully implemented: 05/30/2008

D.3 Enter Milestone Activities, with due dates, that your organization is proposing, or has completed, for this Mitigation Plan:

Milestone Activity	Proposed/Actual Completion Date* (shall not be more than 3 months apart)
Complete FRM (R1)	May 30, 2008

(*) Note: Implementation milestones no more than three (3) months apart are permissible only for Mitigation Plans with expected completion dates more than three (3) months from the date of submission. Additional violations could be determined for not completing work associated with accepted milestones.

For Public Release - October 14, 2009

FRCC
Florida Reliability Coordinating Council, Inc.

Section E: Interim and Future Reliability Risk

Abatement of Interim BPS Reliability Risk

E.1 While your organization is implementing this Mitigation Plan the reliability of the Bulk Power System (BPS) may remain at higher risk or be otherwise negatively impacted until the plan is successfully completed. To the extent they are, or may be, known or anticipated: (i) identify any such risks or impacts; and (ii) discuss any actions that your organization is planning to take to mitigate this increased risk to the reliability of the BPS. Additional detailed information may be provided as an attachment:

While New Hope implements this plan, we cannot assert with absolute certainty that our facility's maximum output rating is the same as what is modeled in the regional transmission system models, since this methodology is required for us to establish the most limiting element and report it. However, given common design practices and the length of time we have been operating without equipment difficulty, the likelihood that we will find a significant change in our facility rating is very low, and even a significant change to our rating will have a low impact on the BPS, due to the small size of our facility.

Prevention of Future BPS Reliability Risk

E.2 Describe how successful completion of this Mitigation Plan will prevent or minimize the probability that your organization incurs further risk or Alleged violations of the same or similar reliability standards requirements in the future. Additional detailed information may be provided as an attachment:

This potential violation was due to the fact that we have not yet established the necessary Methodology, as this is the first time it has been required of us. Following completion of this mitigation plan, we will be in compliance and the methodology will be established. We will review and update this methodology as our facility is added to or modified in the future, and as we receive comments. This will ensure that we remain in compliance with this standard in the future.

For Public Release - October 14, 2009

FRCC
Florida Reliability Coordinating Council, Inc.

Section F: Authorization

An authorized individual must sign and date this Mitigation Plan Submittal Form. By doing so, this individual, on behalf of your organization:

a) Submits this Mitigation Plan for acceptance by the FRCC and approval by NERC, and

b) If applicable, certifies that this Mitigation Plan was completed on or before the date provided as the 'Date of Completion of the Mitigation Plan' on this form, and

c) Acknowledges:

1. I am the Plant Manager of New Hope Power Partnership.

2. I am qualified to sign this Mitigation Plan on behalf of New Hope Power Partnership.

3. I understand New Hope Power Partnership's obligations to comply with Mitigation Plan requirements and ERO remedial action directives as well as ERO documents, including, but not limited to, the NERC Rules of Procedure, including Appendix 4(C) (Compliance Monitoring and Enforcement Program of the North American Electric Reliability Corporation" (NERC CMEP)).

3. I have read and am familiar with the contents of this Mitigation Plan.

4. New Hope Power Partnership agrees to comply with, this Mitigation Plan, including the timetable completion date, as accepted by the FRCC and approved by NERC.

For Public Release - October 14, 2009

FRCC
Florida Reliability Coordinating Council, Inc.

Attachment A – Compliance Notices & Mitigation Plan Requirements

I. Section 6.2 of the CMEP[1] sets forth the information that must be included in a Mitigation Plan. The Mitigation Plan must include:

(1) The Registered Entity's point of contact for the Mitigation Plan, who shall be a person (i) responsible for filing the Mitigation Plan, (ii) technically knowledgeable regarding the Mitigation Plan, and (iii) authorized and competent to respond to questions regarding the status of the Mitigation Plan. This person may be the Registered Entity's point of contact described in Section 2.0.

(2) The Alleged or Confirmed Violation(s) of Reliability Standard(s) the Mitigation Plan will correct.

(3) The cause of the Alleged or Confirmed Violation(s).

(4) The Registered Entity's action plan to correct the Alleged or Confirmed Violation(s).

(5) The Registered Entity's action plan to prevent recurrence of the Alleged or Confirmed violation(s).

(6) The anticipated impact of the Mitigation Plan on the bulk power system reliability and an action plan to mitigate any increased risk to the reliability of the bulk power-system while the Mitigation Plan is being implemented.

(7) A timetable for completion of the Mitigation Plan including the completion date by which the Mitigation Plan will be fully implemented and the Alleged or Confirmed Violation(s) corrected.

(8) Implementation milestones no more than three (3) months apart for Mitigation Plans with expected completion dates more than three (3) months from the date of submission. Additional violations could be determined for not completing work associated with accepted milestones.

(9) Any other information deemed necessary or appropriate.

(10) The Mitigation Plan shall be signed by an officer, employee, attorney or other authorized representative of the Registered Entity, which if applicable, shall be the person that signed the Self-Certification or Self Reporting submittals.

II. This submittal form must be used to provide a required Mitigation Plan for review and acceptance by the FRCC and approval by NERC.

III. This Mitigation Plan is submitted to the FRCC and NERC as confidential information in accordance with Section 1500 of the NERC Rules of Procedure.

[1] "*Uniform Compliance Monitoring and Enforcement Program of the North American Electric Reliability Corporation*;" a copy of the current version approved by the Federal Energy Regulatory Commission is posted on NERC's website.

For Public Release - October 14, 2009

FRCC
Florida Reliability Coordinating Council, Inc.

IV. This Mitigation Plan Submittal Form may be used to address one or more related Alleged or Confirmed violations of one Reliability Standard. A separate mitigation plan is required to address Alleged or Confirmed violations with respect to each additional Reliability Standard, as applicable.

V. If the Mitigation Plan is accepted by the FRCC and approved by NERC, a copy of this Mitigation Plan will be provided to the Federal Energy Regulatory Commission in accordance with applicable Commission rules, regulations and orders.

VI. The FRCC or NERC may reject Mitigation Plans that they determine to be incomplete or inadequate.

VII. Remedial action directives also may be issued as necessary to ensure reliability of the BPS.

Re: NHPC - Mitigation Plans – request for extension of completion date for FAC-008 and TOP-003

Dear Mr. Meriwether,

The Florida Reliability Coordinating Council, Inc. (FRCC) compliance staff has received your request for an extension of the proposed completion date, dated May 22, 2008, for the mitigation plans referenced above submitted by you for New Hope Power Company (NHPC). The FRCC has considered your justification for the extension of the completion dates and **accepts** the date of June 30, 2008, for each mitigation plan. The FRCC will notify the North American Electric Reliability Corporation of the revised completion dates for these mitigation plans.

If you have any questions you may reach me at 813-207-7968.

Respectfully,

Barry G. Pagel

Re: New Hope Power Partners
Mitigation Plan – 2007 Self-Certification
Violation of NERC Standard: FAC-008-1, R1

FRCC200700026, NHPP_2007_02

Dear Mr.Capone,

The evidence submitted by New Hope Power Partners (NHPP) for the above referenced Self-Certification violation has been received by the Florida Reliability Coordinating Council, Inc. (FRCC). After review, the FRCC Compliance Staff finds that the evidence submitted indicates that NHPP has completed its mitigation plan for the above violation number. The FRCC will notify the North American Electric Reliability Corporation (NERC) accordingly.

Feel free to contact me with any questions at 813-207-7968.

Review process:
NHPP provided a certification of completion for this mitigation plan on December 12, 2008. FRCC reviewed evidence of completion and compliance provided by NHPP against the NERC Reliability Standard Audit Worksheet for FAC-008-1, requirement 1.

Evidence submitted by the entity included:
NHPP provided documentation of revised Facility Rating Procedure along with additional evidence clarification sent with NHPP 4/24/09 email to FRCC.

Review results:
The FRCC Compliance Staff after completing the above review determined, in their professional judgment, that the evidence submitted by NHPP did meet the requirement of the NERC Reliability Standard FAC-008-1, requirement 1.
