Q3 Briefly describe the nominee's experience and qualifications to serve on the RSTC:

3-term OC member representing Small End-Use Electricity Customer segment 9. 5-term SC member. Dual citizen domiciled in Canada and born in the USA. NERC participant/member for a quarter century, 20 years of it actively engaged in the Resources Subcommittee and related Standard Drafting teams. Subscribe to "cost-causation" alignment of incentives whereby disturbers of the grid should pay the entities who provide the support services to the grid, thereby minimizing such costs and small-consumer payment of them while maximizing well-defined reliability.

International consulting on electric power system reliability and economics in Europe and Asia on the basis of North American expertise, in conformity with independent membership in NERC's small end-use electricity customer segment 9 that precludes having North American clients. Given technical conference presentations and US public-utility commission expert testimony, and contributed technical and policy articles to publications including IEEE Transactions on Power Systems, Public Utilities Fortnightly, The Wall Street Journal, the New York Times, and the Los Angeles Times. Advised FERC. Prior to NERC, advised in restructuring Quebec’s and Ontario’s electric power industries. Involved in the early development of internet governance and published on cybersecurity challenges.

Graduate degrees from Columbia University and McGill University concentrated on mathematics and probabilistic methods.
