

# Standards Announcement **Reminder**

## Project 2007-17.3 Protection System Maintenance and Testing: Sudden Pressure Relays

### PRC-005-X

**Additional Ballot and Non-Binding Poll Now Open through September 12, 2014**

#### [Now Available](#)

An additional ballot for **PRC-005-X – Protection System, Automatic Reclosing, and Sudden Pressure Relaying Maintenance** and non-binding poll of the associated Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs) are open through **8 p.m. Eastern on Friday, September 12, 2014.**

#### **Instructions for Balloting**

Members of the ballot pools associated with this project may log in and submit their vote for the standard and non-binding poll of the associated VRFs and VSLs by clicking [here](#).

**Note:** If a member cast a vote in the initial ballot, that vote will not carry over to the additional ballot. It is the responsibility of the registered voter in the ballot pool to cast a vote again in the additional ballot. To ensure a quorum is reached, if you do not want to vote affirmative or negative, please cast an abstention.

#### **Next Steps**

The ballot results will be announced and posted on the project page. The drafting team will consider all comments received during the formal comment period and, if needed, make revisions to the standard and post it for an additional ballot. If the comments do not show the need for significant revisions, the standard will proceed to a final ballot.

For more information on the **Standards Development Process**, please refer to the [Standard Processes Manual](#).
