

## Standards Announcement

### Ballot Pool and Pre-ballot Window

March 24–April 22, 2009

Now available at: <https://standards.nerc.net/BallotPool.aspx>

### **Interpretation of IRO-010-1 for the WECC Reliability Coordination Subcommittee (Project 2009-11)**

An interpretation of IRO-010-1 — Reliability Coordinator Data Specification and Collection, Requirements R1.2 and R3, for the Western Electricity Coordinating Council (WECC) Reliability Coordination Subcommittee is posted for a 30-day pre-ballot review. Registered Ballot Body members may join the ballot pool to be eligible to vote on this interpretation **until 8 a.m. EDT on April 22, 2009**.

During the pre-ballot window, members of the ballot pool may communicate with one another by using their “ballot pool list server.” (Once the balloting begins, ballot pool members are prohibited from using the ballot pool list servers.) The list server for this ballot pool is: [bp-2009-11 RFI WECC RCS in.](#)

### **Project Background**

The WECC Reliability Coordination Subcommittee is seeking clarification on 1) the type of data to be supplied to the Reliability Coordinator, 2) which entities are ultimately responsible for ensuring data are provided, and 3) what actions are expected of the Reliability Coordinator regarding a “mutually acceptable format.” The request and interpretation can be found on the project page:

[http://www.nerc.com/filez/standards/Project2009-11\\_Interpretation\\_IRO-010-1\\_WECC\\_RCS.html](http://www.nerc.com/filez/standards/Project2009-11_Interpretation_IRO-010-1_WECC_RCS.html)

### **Standards Development Process**

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
