**VIA ELECTRONIC FILING**

Ms. Kimberly D. Bose, Secretary  
Federal Energy Regulatory Commission  
888 First Street, NE  
Washington, D.C. 20426

**Re: *Informational Filing Regarding Regional Reliability Standard BAL-001-TRE-1*  
Docket No. RD13-12-\_\_**

Dear Secretary Bose:

The North American Electric Reliability Corporation (“NERC”) hereby submits, for informational purposes, revisions to Texas Reliability Entity, Inc.’s (“Texas RE”) Primary Frequency Response Reference Document, which is included as Attachment 2 to regional Reliability Standard BAL-001-TRE-1. This standard was approved by the Commission on January 16, 2014 in the above-captioned docket and is applicable only within the Texas RE footprint.<sup>1</sup>

The Primary Frequency Response Reference Document is maintained by Texas RE and provides specific methodology for determining the Primary Frequency Response performance for individual resources. Pursuant to the revision process set forth in the document, any revisions to the Primary Frequency Response Reference Document approved by the Texas RE Board of Directors shall be filed with NERC and FERC for informational purposes.

---

<sup>1</sup> *North American Electric Reliability Corp.*, 146 FERC ¶ 61,025, Docket No. RD13-12-000 (2014).

The purpose of the revisions reflected in the attached clean and redline documents is to reflect proposed amendments to the Texas RE Bylaws and the Texas RE Standards Development Process (“SDP”) that eliminate the Texas RE Reliability Standards Committee and transfer its duties to the Texas RE Member Representatives Committee. The revised Texas RE Bylaws and SDP have been filed with the Commission concurrent with this informational filing.

NERC is not requesting any Commission action on the instant filing. NERC respectfully requests that the Commission accept this filing for informational purposes only.

Respectfully submitted,

/s/ Shamai Elstein
