I. INTRODUCTION

The North American Electric Reliability Corporation (“NERC”) submits this filing in compliance with paragraph 125 of the Commission’s October 24, 2006 Order in this docket.¹ The information requested by the Commission is provided in **Attachments 1, 2 and 3** to this filing.

III. RESPONSE TO PARAGRAPH 125 OF OCTOBER 24, 2006 ORDER

In the October 24 Budget Order, the Commission conditionally accepted NERC’s 2007 business plan and ERO budget (including proposed Regional Entity 2007 budgets for statutory functions), approved proposed assessments to users, owners and operators of the bulk-power

¹ *Order Conditionally Accepting 2007 Business Plans and Budgets of the North American Electric Reliability Corporation, Approving Assessments to Fund Budgets and Ordering Compliance Filings*, 117 FERC ¶61,091 (issued Oct. 24, 2006) (“October 24 Budget Order”).

system to fund the 2007 budget, and directed various compliance filings. In paragraph 125 of the October 24 Budget Order, the Commission stated:

125. We note that FRCC, MRO, NPCC, RFC, SPP and WECC do not state the number of audits that will be conducted during a year or the total number of entities that will be subject to their oversight. Therefore, once NERC and the Regional Entities have obtained Commission approval of the delegation agreements, we direct NERC to file a supplement to the budget for each Regional Entity that should state: (1) the total budget for statutory and non-statutory activities as required in Order No. 672; (2) the total number of entities subject to each Regional Entity's oversight; and (3) the total number of audits to be conducted during the year for each audit type.^[2]

The Commission approved the delegation agreements between NERC and the Regional Entities in its Order issued April 19, 2007 in Docket Nos. RR07-1 through RR07-8.³ Accordingly, NERC is now providing the additional information called for in paragraph 125 of the October 24 Budget Order.

NERC is providing the information required by paragraph 125 in the three Attachments to this filing. **Attachment 1** shows the 2007 budget for statutory activities, the budget for non-statutory activities, and the total budget, of each of the eight Regional Entities. This attachment also shows the breakdown of each Regional Entity's 2007 budget for statutory functions between the amount being funded by assessments to bulk-power system users, owners and operators in the United States and the amount being funded from other sources.

² The acronyms in P 125 refer to, respectively, the Florida Reliability Coordinating Council, Midwest Reliability Organization, Northeast Power Coordinating Council, ReliabilityFirst Corporation, Southwest Power Pool and Western Electricity Coordinating Council. Acronyms for the two other Regional Entities, used in this filing, are: ERCOT – Texas Regional Entity, a Division of the Electric Reliability Council of Texas; and SERC – SERC Reliability Corporation.

³ *Order Accepting ERO Compliance Filing, Accepting ERO/Regional Entity Delegation Agreements, and Accepting Regional Entity 2007 Business Plans*, 119 FERC ¶61,060 (issued April 19, 2007).

Attachment 2 shows the total number of entities subject to each Regional Entity's oversight, as measured by the number of entities in the NERC Compliance Registry within each Regional Entity's footprint as of April 9, 2007. The first page of this Attachment is a summary sheet showing the number of entities in the Compliance Registry within each Regional Entity's footprint both in total and by reliability category of the NERC Functional Model. The remaining pages of **Attachment 2** list the entities in the NERC Compliance Registry as of April 9, 2007, showing for each entity (i) the applicable Regional Entity and (ii) the reliability function(s) for which the entity is identified as responsible in the Compliance Registry.

Attachment 3 shows the 2007 audit schedule for, and total number of audits to be conducted by, each Regional Entity, including the audit types. Page 1 of this Attachment is a summary schedule showing the number of audits scheduled to be conducted in 2007 by each Regional Entity, in total and by reliability function of the entities to be audited. Pages 2 and 3 of this Attachment list the entities scheduled to be audited by each Regional Entity in 2007, the scheduled start date and end date for each entity, the location of the audit, and the reliability functions to be audited for each entity.

IV. CONCLUSION

The North American Electric Reliability Corporation respectfully requests that the Commission accept this filing as compliance with paragraph 125 of the October 24 Budget Order.

Respectfully submitted,

/s/ Rick Sergel

NOTES:

¹ Other Funding Sources consist of funding from Canadian and Mexican entities and revenue generated from the users of specific services provided by a Regional Entity (i.e. workshops)

² \$5,138,789 of WECC's U.S. assessment related to WECC's Reliability Coordinator function was initially denied funding by the FERC and was not billed on a statutory basis. On rehearing, the FERC has subsequently allowed these costs to be included in the statutory assessments. WECC has yet to determine the best way to collect these additional costs.
