Correction Notice

TADS Form 4.1 drop-down box on old file “TADS_Master_Data_Forms_03-19-2008.xls”

On Form 4.1 under the column labeled “Initiating Cause Code [6]”, the drop down box works properly in the first data row (row 16). However, the drop down box was blank starting in row 17 and could not be used.

As of 5/5/2008 the “TADS_Master_Data_Forms_03-19-2008.xls” file was deleted from the TADSTF web site, and the corrected file was re-posted with the following new title:

“TADS_Master_Data_Forms_03-19-2008_corrected.xls”
