

April 23, 2007

TO: REGISTERED BALLOT BODY

Ladies and Gentlemen:

Announcement: Expedited Standards Recirculation Ballot Window for Supplemental Version 1 Violation Risk Factors Open April 23–27, 2007

The Standards Committee (SC) announces the following standards actions:

Expedited Recirculation Ballot Window Opens for Supplemental Version 1 Violation Risk Factors

The expedited recirculation [ballot](#) window for the supplemental version 1 violation risk factors is open through 8 p.m. (EDT) Friday, April 27, 2007. The Standards Committee urges ballot pool members who wish to change their initial vote and ballot pool members who did not vote during the initial ballot period of April 16 through April 21, 2007 to register their votes during this period.

All members of the ballot pool are encouraged to review the comments submitted with the initial ballot and the responses to those comments. All comments and responses are posted at the following site: <http://www.nerc.com/~filez/standards/Violation-Risk-Factors.html>

Members of the ballot pool may:

- Reconsider and change their vote from the first ballot.
- Vote in the second ballot even if they did not vote on the first ballot.
- Take no action if they do not want to change their original vote.

In the recirculation ballot, votes are counted by exception only — if members don't indicate a revision to their original votes, the vote remains the same as in the first ballot.

If you experience any difficulty casting your ballot, please e-mail your ballot to Barbara Bogenrief at: Barbara.Bogenrief@nerc.net

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate. If you have any questions, please contact me at 813-468-5998 or maureen.long@nerc.net.

Sincerely,

Maureen E. Long
