Individual
Pat Huntley on behalf of the SERC legal department
SERC Reliability Corp.
On October 26, 2011, the SERC Board of Directors approved revised Bylaws for SERC. Due to the Board's action, the following changes have been recommended by SERC's legal department to conform with the Bylaws revisions. 1. The term "SERC area" should be changed to "SERC Region" throughout the document to be consistent with the revised Bylaws. 2. The terms "member" and "members" (when referring to members of SERC) should be changed throughout the document to "Member Company" or "Member Companies" to be consistent with the revised Bylaws. 3. In Appendix A: Stakeholder representation, amend the language in paragraphs A.1 and A.2 to be consistent with the revised Bylaws. An additional change is proposed in Step 10, based on a recommendation received following NERC's 2009 audit of SERC to make clear that ballots will include provisions for comments and written responses will be prepared for each comment.

The SERC OC Standards Review Group endorses the changes made in Draft 3 of Revision 2 to the SERC Regional Standards Development Procedure, which we feel provides consistent uniformity with NERC's continent-wide reliability standards. The comments expressed herein represent a consensus of the views of the above named members of the SERC OC Standards Review group only and should not be construed as the position of SERC Reliability Corporation, its board or its officers.
