Note: Non-binding poll opinions were incorrectly carried over from the previous non-binding poll on the VRF and VSLs for this project. Therefore, the number of ballot pool members who provided an opinion may reflect some members who did not cast a ballot in the non-binding poll that just concluded. Similarly, the percent providing a supportive opinion provides an indication of the degree of support for the VRF and VSLs that were posted for the recent non-binding poll, but cannot be used as a precise measure of that support. (The ballot for the standard was opened correctly and the ballot results above are accurate.)
