RELIABILITY CORPORATION

## Standards Announcement

### Initial Ballot Window Open

February 15–26, 2010

Now available at: <https://standards.nerc.net/CurrentBallots.aspx>

#### **Project 2009-30: Interpretation of PRC-001-1 for the Wisconsin Public Service Corporation**

An initial ballot window for an interpretation of standard PRC-001-1 — System Protection Coordination, Requirement R1, for the Wisconsin Public Service Corporation is now open **until 8 p.m. EST on February 26, 2010**.

#### **Instructions**

Members of the ballot pool associated with this project may log in and submit their votes from the following page: <https://standards.nerc.net/CurrentBallots.aspx>

#### **Next Steps**

Voting results will be posted and announced after the ballot window closes.

#### **Project Background**

The Wisconsin Public Service Corporation is seeking clarification of the term “Generator Operator” as it applies to Requirement R1 of PRC-001-1.

The request and interpretation can be found on the project page:

[http://www.nerc.com/filez/standards/Project2009-30\\_PRC-001-1\\_R1\\_WPSC.html](http://www.nerc.com/filez/standards/Project2009-30_PRC-001-1_R1_WPSC.html)

#### **Standards Development Process**

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
