

Standards Announcement

Nomination Period Opens for Standard Authorization Request
(SAR) Drafting Team

April 29–May 13, 2009

Now available at: [http://www.nerc.com/filez/standards/Project2009-01_Disturbance Sabotage Reporting.html](http://www.nerc.com/filez/standards/Project2009-01_Disturbance_Sabotage_Reporting.html)

Nominations for SAR Drafting Team (Project 2009-01 — Disturbance and Sabotage Reporting)

The Standards Committee is seeking industry experts to serve on the Disturbance and Sabotage Reporting SAR Drafting Team (see project background below). The SAR drafting team will assist the requester in further developing the SAR and considering stakeholder comments.

If you are interested in serving on this standard drafting team, please complete the following electronic nomination form **by May 13, 2009**:

<https://www.nerc.net/nercsurvey/Survey.aspx?s=bf869d5cbde94f9788c7606a2f50829f>

Please contact Dave Taylor at david.taylor@nerc.net or at 609-651-5089 with any questions about the team.

Project Background:

Project 2009-01 — Disturbance and Sabotage Reporting will entail revising existing standards CIP-001-1 — Sabotage Reporting and EOP-004-1 — Disturbance Reporting to eliminate redundancies and provide clarity on sabotage events. The project includes addressing several issues identified by stakeholders, FERC directives from Order 693, and may include improvements to the standards deemed appropriate by the drafting team, with the consensus of stakeholders, consistent with establishing high quality, enforceable and technically sufficient bulk power system reliability standards.

More information about the project is available on the following page:

[http://www.nerc.com/filez/standards/Project2009-01_Disturbance Sabotage Reporting.html](http://www.nerc.com/filez/standards/Project2009-01_Disturbance_Sabotage_Reporting.html)

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
