## Standards Announcement

### Ballot Pool and Pre-ballot Window

January 27–February 26, 2010

Now available at: <https://standards.nerc.net/BallotPool.aspx>

#### **Project 2009-32: Interpretation of EOP-003-1, Requirements R3 and R5, for the Florida Municipal Power Pool (FMPP)**

An interpretation of standard of EOP-003-1 — Load Shedding Plans, Requirements R3 and R5, for FMPP is posted for a 30-day pre-ballot review. Registered Ballot Body members may join the ballot pool to be eligible to vote on this interpretation **until 8 a.m. EST on February 26, 2010.**

During the pre-ballot window, members of the ballot pool may communicate with one another by using their “ballot pool list server.” (Once the balloting begins, ballot pool members are prohibited from using the ballot pool list servers.) The list server for this ballot pool is: [bp-2009-32\\_RFI\\_FMPP\\_in@nerc.com](mailto:bp-2009-32_RFI_FMPP_in@nerc.com).

#### **Next Steps**

Voting will begin shortly after the pre-ballot review closes.

#### **Project Background**

FMPP is seeking clarification as to whether Requirements R3 and R5 apply only to automatic load shedding or to both automatic and manual load shedding.

The request and interpretation can be found on the project page:

[http://www.nerc.com/filez/standards/Project2009-32\\_EOP-003-1\\_R3\\_R5\\_FMPP.html](http://www.nerc.com/filez/standards/Project2009-32_EOP-003-1_R3_R5_FMPP.html)

#### **Standards Development Process**

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
