ATCTDT July 27, 2006 Meeting Notes:

The drafting team held a conference call to review redlined changes to MOD-001-1. The drafting team reviewed each requirement of the proposed revision to the MOD-001-1 standard proposed by Ron Carlsen. The team identified that there were not requirements that were omitted. The team accepted the proposed revisions. The team notes that this change standardizes many of the requirements and approach in the Rated Path Method and the Network Response Methods.

The next conference call will be set for August 3, 2006.
