Re: NERC Spreadsheet Notice of Penalty Filing – Errata  
FERC Docket No. NP13-41-000

On June 27, 2013, the North American Electric Reliability Corporation (NERC) submitted a Spreadsheet Notice of Penalty filing. It has come to NERC's attention that the NERC violation ID numbers associated with two of the violations were incorrect. Specifically, the violation ID number associated with ReliabilityFirst Corporation Unidentified Registered Entity 2 should be RFC2012011281 instead of RFC2012010281 and the violation ID number associated with ReliabilityFirst Corporation Registered Entity 3 should be RFC2012011448 instead of RFC2012010448. NERC's instant filing includes, in Attachment A, a revised Spreadsheet Notice of Penalty reflecting the correction.

*Request for Confidential Treatment*

Attachment A includes confidential information as defined by the Commission's regulations at 18 C.F.R. Part 388 and orders, as well as NERC Rules of Procedure including the NERC CMEP Appendix 4C to the Rules of Procedure. This includes non-public information related to certain Reliability Standards possible violations and confidential information regarding critical energy infrastructure.

In accordance with the Commission's Rules of Practice and Procedure, 18 C.F.R. § 388.112, a non-public version of the information redacted from the public filing is being provided under separate cover.

Because certain of the information in the attached documents is deemed "confidential" by NERC, Registered Entities and Regional Entities, NERC requests that the confidential, non-public information be provided special treatment in accordance with the above regulation.
