Re: NERC FFT Informational Filing
FERC Docket No. RC12-12-000

On May 30, 2012, the North American Electric Reliability Corporation (NERC) submitted a Find Fix and Track Report (FFT) informational filing. It has come to NERC's attention that the Reliability Standard associated with 1) Midwest Energy, Inc.'s violation ID number SPP201000366 and 2) Western Farmers Electric Cooperative's violation ID number SPP201000443 should be listed as TOP-002-2 rather than TOP-002-1.

Accordingly, NERC respectfully requests that the record be corrected as noted above.

Respectfully submitted,

/s/ Rebecca J. Michael
