

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Priorities for Addressing Risks to the
Reliability of the Bulk-Power System

Docket No. AD11-6-000

NOTICE ESTABLISHING DATE FOR COMMENTS

(February 17, 2011)

On February 8, 2011, the Federal Energy Regulatory Commission convened a Commissioner-led technical conference regarding priorities for addressing risks to the reliability of the Bulk-Power System, as previously announced.¹ Any entity or person wishing to submit written comments regarding the matters discussed at that technical conference should submit such comments in this docket, AD11-6-000, on or before March 21, 2011.

Kimberly D. Bose,
Secretary.

¹ *Notice of Technical Conference re Priorities for Addressing Risks to the Reliability of the Bulk-Power System*, 76 Fed. Reg. 2369 (January 13, 2011), as supplemented by the *Reliability Technical Conference Agenda* issued January 7, 2011.
