**RE: Errata to Petition of the North American Electric Reliability Corporation for Approval of Proposed Reliability Standards COM-001-2 and COM-002-4  
Docket No. RM14-13-000**

Dear Ms. Bose:

On May 14, 2014, the North American Electric Reliability Corporation (“NERC”) filed a Petition for approval of proposed Reliability Standards COM-001-2 and COM-002-4 with the Federal Energy Regulatory Commission. The Petition incorrectly notes that Requirement R1 of Reliability Standard EOP-008-1 is proposed for retirement. The Implementation Plans referenced in the Petition list the correct proposed retirements for approval. The following changes in strikethrough font illustrate the necessary corrections to the language in the Petition. NERC is not requesting retirement of EOP-008-1, Requirement R1.

Of particular note in the Implementation Plan, the standard drafting team concluded that Requirement R5 in COM-001-1.1 is redundant with EOP-008-1, Requirement R1 and, therefore, has not been carried forward in proposed COM-001-2. ~~As a result, NERC proposes EOP-008-1, Requirement R1 for retirement.~~

Pages 1-2

NERC also requests approval of: (i) new defined terms “Operation Instruction”, “Interpersonal Communication”, and “Alternative Interpersonal Communication” for inclusion in the NERC Glossary of Terms; (ii) the Implementation Plans for the proposed Reliability Standards (Exhibits C and D); (iii) the associated Violation Risk Factors (“VRFs”) and Violation Severity Levels (“VSLs”) (Exhibits A, B, K, and L); and (iv) the retirement

of the currently-effective Reliability Standards COM-001-1.1, ~~EOP-008-1 (Requirement R1)~~, and COM-002-2 as listed in the Implementation Plans.

- approve the retirement of the currently effective Reliability Standards COM-001-1.1, ~~EOP-008-1 (Requirement R1)~~, and COM-002-2, as proposed in the Implementation Plans.

Respectfully submitted,
