

UNITED STATES OF AMERICA
Before the
FEDERAL ENERGY REGULATORY COMMISSION

Interconnection for Wind Energy

Docket No. RM05-4-000

**JOINT REQUEST OF THE NORTH AMERICAN ELECTRIC
RELIABILITY COUNCIL AND THE AMERICAN WIND ENERGY
ASSOCIATION FOR ADDITIONAL TIME**

Pursuant to the Commission's Order Granting Extension of Effective Date and Extending Compliance Date issued in this docket August 5, 2005 ("Order"), the North American Electric Reliability Council ("NERC") and the American Wind Energy Association ("AWEA") are required to submit by September 14, 2005, a report describing the final results of their discussions and recommending revisions to the low voltage ride-through ("LVRT") provisions of the Final Rule. After diligent and detailed discussions, NERC and AWEA have reached an agreement on recommended revisions to the LVRT standard.

However, this agreement was only approved by the NERC after business hours on September 13, 2005, and there has not been time to prepare the report called for by the deadline in the Commission's Order. AWEA and NERC therefore request additional time, specifically three additional business days until September 19, 2005, to prepare and file the report. Based on discussions with

FERC Staff, NERC and AWEA understand that this brief extension will not prejudice any party nor affect the overall schedule set forth in the Order.

Dated: September 14, 2005

Respectfully submitted,

By: _____
