

North American Electric Reliability Corporation NERC IT Services webSDX (Project #420) webSDX Change Order #10

NAME: IDCWG -LaChelle Brooks (PJM)
DATE: January 18, 2012
SUMMARY: Change the Filtering Options on Displays
VERSION: 1.0

DETAIL: Customer submitted the following request: Link the filtering options from one display to the other for displays.

EVALUATION SECTION:

EVALUATOR'S NAME: Jim Latimer, Project Manager

DATE: January 18, 2012.

DESCRIPTION: OATI proposes to implement the requested GUI changes, in the manner described below:

Transfer the applicable filtering options from the parent displays below to their corresponding child displays.

Parent 1: Generation Outages

- Child 1: Generation Manual Outages (accessible through the link View Manual Outages)
- Child 2: Generation Overlapping Outages (accessible through the link View Overlapping outages)

Parent 2: Transmission Outages

- Child 1: Transmission Manual Outages (accessible through the link View Manual Outages)
- Child 2: Transmission Overlapping Outages (accessible through the link View Overlapping Outages)
