

## OATI WEBCARES BUSINESS REPRESENTATIVE APPLICATION FORM

To become an OATI webCARES subscriber, each company must designate a Security Officer (SO). A Security Officer uses webCARES as a Corporate Certificate Authority otherwise known as a Local Registration Authority (LRA).

The SO/LRA is responsible for performing identity verification within your organization, and creating, distributing, revoking, renewing, and archiving webCARES Digital Certificates across your organization. This includes device and end user certificates. For these reasons, OATI strongly recommends at least one Security Officer be selected from the organization's IT or Security Department. This will help to ensure technical competency, enterprise wide coordination, elimination of duplicate certificates, and the highest level of security within your organization.

Please complete and print the below form. Note the signatures of the Security Officer must be notarized for identity verification purposes. Once completed and notarized please mail the original completed form to webCARES Support at OATI at the address below.

For more information on OATI webCARES and the responsibilities of becoming a subscriber, please see the OATI Certification Practice Statement at www.oaticerts.com/repository.

Please mail the completed original\* form to:

OATI webCARES Support 3660 Technology Drive NE Minneapolis, MN 55418

\*Changes to an existing form can be faxed to (763) 201-5333 or scanned and emailed to Contracts@oati.net
