Q3

Briefly describe the nominee's experience and qualifications to serve on the RISC:

I joined Sunflower in 2001 as a transmission & distribution planning engineer and was promoted to Vice President of Transmission Planning, Policy & Compliance in 2015. My current responsibilities include overseeing transmission policy, planning and transmission engineering. In addition, I oversee Sunflower's NERC O&P and CIP compliance. I have been active in the Southwest Power Pool working groups and committees since 2007 and served on several Southwest Power Pool working groups, task forces and committees, including the Economic Studies Working Group ("ESWG"), Markets and Operations Policy Committee ("MOPC"), Finance Committee, Synchrophasor Task Force, Chair for the Generation Interconnection Improvement Task Force ("GIITF"), Chair for the High Priority Incremental Load Study ("HPILs"). I have also served as a member on the Holistic Integrated Tariff Team Committee. My education is in power system engineering and business "MBA" focused on business strategy developments. I hold a master's degree in electrical engineering from Wichita State University and a Doctor of Philosophy (Ph.D.) degree in electrical engineering from Kansas State University and I attended the MBA program at Baker University. I am widely published in industry publications including The Institute of Electrical and Electronics Engineers ("IEEE"). Most of my publications were focused on optimization of transmission investments as they relate to high penetration of large wind resources in rural communities. I have also earned a senior member status in the IEEE society. I became a licensed professional engineer in Kansas in 2005.
