Page 1: Nominations are due by January 10, 2020

**Q1** Information about you, the nominator:

First and Last Name	<b>Maggy Powell</b>
Email Address	<b>MaggyP@amazon.com</b>
Phone Number	<b>410-949-7048</b>

---

**Q2** Information about the nominee:

First and Last Name	<b>Maggy Powell</b>
Company	<b>Amazon Web Services</b>
Email Address	<b>MaggyP@amazon.com</b>
Phone Number	<b>410-949-7048</b>

---

**Q3** Please select representation: **United States,**  
**Canada**

---

**Q4** Select each applicable NERC Interconnection: **Eastern Interconnection,**  
**Quebec Interconnection,**  
**Texas Interconnection,**  
**Western Interconnection**

---

**Q5** Briefly describe the nominee's experience and qualifications to serve on the RSTC:

I am uniquely qualified to serve on the RSTC because of my expertise in cyber security and the NERC standards (development and compliance), as well as due to my work experience previously with a large investor-owned utility (Exelon) and currently with a large-end user company (Amazon Web Services).

In my current role in Security Assurance at Amazon Web Services, I am in a position to engage on security and compliance challenges particularly as the electric industry assesses new technologies. As a large-end user, AWS relies on the secure, compliant and reliable operation of the electric grid to support AWS operations and electric industry customers in all NERC Regions, including Canada. As well, I bring along technical expertise in network technology to explore and address the electric sector priorities in assessing technological approaches new to the sector.

From my over 14 years of past experience in the utility industry, I have a breadth and depth of experience in cybersecurity operations, applicability of the CIP requirements and the NERC standards development process. Representing Exelon, I actively participated in the V5 CIP standards development and continued as Co-Chair for the V6 revisions as well as served as Chair of the CIP Modifications drafting team that followed V6 until stepping down to take on cybersecurity operations at Exelon. I managed cybersecurity teams focused on real time systems security including event monitoring, vulnerability management, incident response, and physical security, among other security functions. My teams successfully completed two CIP audits.

I look forward to the opportunity to engage with colleagues from across the membership sectors. Please contact me with any questions.

---

**Q6** For the initial seating of the RSTC, members will be appointed for either a two-year term or a three-year term. Please select which term you prefer (the final term will be assigned by the RSTC Nominating Subcommittee):

**Three-year term**

---

**Q7** Select each area for which the nominee has expertise or oversight:

**Physical Security,  
Cyber Security**

---

**Q8** Select each Registered Function for which the nominee has expertise or oversight:

**Generator Operator,  
Generator Owner,  
Load-Serving Entity,  
Transmission Operator,  
Transmission Owner**

---
