Q3

Briefly describe the nominee's experience and qualifications to serve on the RSTC:

With over 30 years of progressive power system and utility exposure, Robert has been directly involved in all aspects of the utility industry from real time control room operations, cyber security, planning and emergency operations, transmission system planning, reliability audits and most of the NPCC and NERC standards related to TO/TOP operations. More recently Robert served as an executive member in NERC RSTC, Vice Chair of Electricity Canada Transmission Council and IESO Technical Panel member.

Currently Robert is the Vice President of Transmission System Planning and Large Customer Accounts and manages a large portfolio of activities from planning and engineering studies, standards and compliance to meeting regulatory requirements and developing capital programs that exceed 1.5B annually. He is actively involved in the energy transition initiatives in Ontario and Canada.

Robert's direct experience in Real Time Operations, Cyber/Security standards, requirements and implementation as well as large scale System Planning accountability, provide a balanced and fully relevant background for NERC RSTC.

Robert is currently also involved with the NERC FRTF Team updating FAC 008, NATF Resiliency Core Team developing industry guidance. He is a senior IEEE member and a Professional Engineer in Ontario.
