

## **Cooperative Sector**

The Cooperative Sector supports the second draft of NERC's 2020 Business Plan and Budget. We appreciate the efforts of NERC that have resulted in a slightly declining non-E-ISAC budget for 2020 compared to 2019. We continue to support the improvements to the E-ISAC and understand that significant increased E-ISAC budgets will continue through 2022. After 2022 we hope that the combined NERC and E-ISAC budgets will trend toward a more flat result going forward.

Thank you,

Barry Lawson on behalf of the Cooperative Sector  
Senior Director, Regulatory Affairs  
Government Relations Dept.  
National Rural Electric Cooperative Association (NRECA)
