E-ISAC Update

Adam DeLuca, Director Security Operations
NERC Board of Trustees
Technology and Security Committee Open Session
November 3, 2021
• Threat Landscape
• Operations Update
• Vulnerabilities
  ▪ Adversaries continue scanning for unpatched systems and legacy vulnerabilities
  ▪ Vulnerability disclosures continue to increase
    o Blackberry QNX real-time operation system disclosure (APB-21-05)
    o F5, CISCO, Microsoft, VxWorks, and Industrial Control Systems (ICS) vendors
    o NIST NVD on pace to have 21K vulnerabilities in 2021

• E-ISAC Response
  ▪ Increased production and information sharing
    o 2020: 292 portal posts vs. 2021: 415 (30% increase)
    o New products
      – ICS Security Bulletins
      – Weekly Vulnerability Summaries
• Ransomware
  ▪ Ransomware attacks increased 288% in the first half of 2021
    ○ 10% of all attacks targeted the electricity sector
  ▪ Ransomware gangs continue to be associated with nation-state actors, particularly Russia
  ▪ Conti and Lockbit groups have been very active

• E-ISAC Response
  ▪ 2021: 214 Ransomware posts (61% increase)
  ▪ Weekly Ransomware Update
  ▪ E-ISAC Report: Ransomware Attack Techniques (Posting 135279)
• Domestic Violent Extremists and Activism
  ▪ Threats targeting electricity assets
  ▪ Traditionally, fall brings more campaigns against transmission lines, pipelines and generation assets

• E-ISAC Response
  ▪ Monitoring future trends
    o Geo-political implications to the sector
    o Civil Unrest
  ▪ New products
    o Physical security online threat deck
    o Vulnerability of Integrated Security Analysis Workshops
• Watch Operations Team is 24x7x365
  ▪ Handle over 360 cases per month since February 2021

• Primary Functions
  ▪ Monitoring and Alerting
    o Dark Web (cyber crime and ransomware), Shodan alerts, Open Source
  ▪ Informational Support and Real-Time Analysis
    o Over 600 direct to members and partners since 2021
    o 21% increase in postings in 2021 (YTD)

• E-ISAC Stakeholder Survey Feedback
  ▪ More targeted production and efficiency
    o Consolidated reports, more mature thresholds for production
      – CRISP IOC real-time support, weekly wrap ups (already in production)
    o Continuous improvement
Operations Update

- CRISP OT Dragos Pilot underway
  - Training completed
  - Threat hunts producing results
- Small and Medium Utility MEC Working Group
  - Weekly situational report developed
  - Member driven portal community established
- Survey Feedback
  - Focus on targeted, actionable production
    - Portal production from threat hunts
      - Formalized, direct to members, portal postings for industry
      - Dedicated production check points for postings and other product
    - Streamlined processes and procedures
Questions and Answers
Stakeholder Feedback Surveys

Bluma Sussman, Director, Membership
NERC Board of Trustees
Technology and Security Committee Open Session
November 3, 2021
• Conducted additional analysis of J.D. Power Report findings
• Reviewed data with E-ISAC leadership teams and identified opportunities
• Engaged with respondents who gave lower NPS scores
• Developing Action Plans
• Leadership team outreach to lower NPS scores
  ▪ Conducted outreach to 10% of respondents; interacted with half
  ▪ Aligned outreach to areas of expertise across the team
  ▪ Feedback aligned with overall survey themes

I want to be able to filter on the Portal by topic or region
Ability to chat or share with affinity groups
I’m looking for clearer guidance on what to share

Lots of noise on the Portal, can we streamline who can share information?
More special topic webinars and briefings on trends
Looking for products that are geared to staff at my level
• Overall Satisfaction (OSAT) and Net Promoter Score (NPS) are excellent
  ▪ 95% rated their overall experience as *Good to Perfect*
  ▪ 93% use E-ISAC products and posts to inform
  ▪ 89% prefer receiving information via email notifications
  ▪ 67% prefer some curation of information
  ▪ 49% prefer virtual only events or a mix of in-person and virtual
• Improve information sharing
  ▪ Minimize barriers to sharing information and make information easier to consume

• Explore ways to meet the needs of a diverse membership
  ▪ Stakeholders would like both inclusive and targeted content
  ▪ Audience segmentation

• Event participation
  ▪ GridEx and GridSecCon
  ▪ Industry Engagement Program (IEP)

• Amplify successful outreach programs including IEP and physical and cybersecurity working groups
• Develop and Implement Action Plans by Dec 31, 2021
• Continue to Follow up on Feedback
• Conduct Next Survey in 2022
Questions and Answers
GridEx VI

Laura Brown, Director Strategy, Policy, and Programs
NERC Board of Trustees
Technology and Security Committee Open Session
November 3, 2021
Exercise the resilience of the North American electricity system in the face of a coordinated attack from a nation-state adversary

- Activate incident, operating, and crisis management response plans
- Enhance coordination with government to facilitate restoration
- Identify interdependence concerns with natural gas and telecommunications sectors
- Exercise response to a supply chain-based compromise to critical components
- Identify common mode and cyber operation concerns across interconnections
• Scenario impacts North American west coast

• Includes greater participation from other critical infrastructure sectors

• Will be conducted virtually

• Brock Long, Hagerty Consulting, Former FEMA Administrator will facilitate the tabletop
Questions and Answers
ERO Enterprise Align Project

Stan Hoptroff, Vice President, Business Technology
LaCreacia Smith, Senior PMO Manager, ERO PMO
Lonnie Ratliff, Senior Manager, Cyber and Physical Security Assurance

Technology and Security Committee Open Meeting
November 3, 2021
Agenda

• Align – Benefits
• Canadian Update
• Align Project Timeline
• Release 3 and 4 Updates
• Current Challenges
• How to Stay Informed
Moving to a common platform has provided:

• **A more secure** method of managing and storing Compliance Monitoring and Enforcement Program (CMEP) data

• Alignment of **common business processes**, ensuring consistent practices and data gathering

• A **standardized interface** for registered entities to interact with the ERO Enterprise

• **Real-time access to information**, eliminating delays and manual communications

• **Consistent application** of the CMEP

• **Ease of Access**: Ability to download all standards and requirements for use in other systems
• Implementation Plan
  - Manitoba & Saskatchewan (MRO) – Q1 2022
  - Alberta & British Columbia (WECC) – Q2 2022
  - Nova Scotia (NPCC) – Q4 2022
A 3-day outage is required to deploy Release 3 to production environment (to be announced)
Release 3 Functionality
• Please be advised that the following screenshots are from our test environment and is **TEST DATA** (other than public registration information).

• Data shown is not complete information that would be expected in the production/live environment.

Data Links to Other Views
Align Release 4 Functionality

- Audit Enhancements
- Scheduling Enhancements
- Complaints
- Inherent Risk Assessment
- Compliance Oversight Plan
Challenges

- **Project Fatigue**: Maintaining team and stakeholder engagement
- **People**: Parallel efforts (R3 training & rollout, R4 development)
- **Technical**: Balancing production with on-going development efforts; system status notifications; permission issues
- **Cost Management**: Balancing available funds and enhancement requests
How To Stay Informed

Key communication vehicles

• Align newsletter for Regions and registered entities
• Regional Change Agent Network
• Dedicated project page on NERC.com: Click Here
• CMEP Regional workshops
• NERC News
• Social media
Questions and Answers
Background and Reference Material
Align Release 1: What We Delivered

Release 1 Functionality

- Create and submit Self-Reports and Self-Logs
- Create and manage mitigating activities (informal) and Mitigation Plans (formal)
- View and track Open Enforcement Actions resulting from all monitoring methods
- Receive and respond to Requests for Information (RFIs)
- Receive notifications and view dashboards on new/open action items
- Generate report of NERC Standards and Requirements applicable to your entity
- Manage user access for your specific entity
Align Release 2: What We Delivered

**Stakeholder Group:**

**Registered Entities**

**Release 2 Functionality**

- Create, submit, and modify Technical Feasibility Exceptions
- Create, manage and respond to Periodic Data Submittals
- Create and manage Self Certifications
- Receive and respond to RFIs
- Receive notifications and view dashboards on new/open action items
- Manage user access for your specific entity
Stakeholder Group

Registered Entities

Release 3 Functionality

- Use Align for compliance monitoring engagements (Audit, Spot Checks, and Investigations)
- Ability to review audit report details
- Expand RFIs for Audits
Align Release 4: What to Expect As a Registered Entity

Release 4 Functionality

- Enhanced Audit and Scheduling functionalities
- Compliance Planning (Inherent Risk Assessment and Compliance Oversight Plan)
- Expand RFIs for Compliance Planning
