

**THE GRID WAS
HIGHLY RELIABLE
IN 2019.**

- ✓ No serious events
- ✓ 99.995% energy availability

**Improved trends continue for the
protection system misoperations
rate and frequency
response.**

**Despite increasing threats,
there was no loss of
load due to cyber or
physical attack.**

NERC
NORTH AMERICAN ELECTRIC
RELIABILITY CORPORATION
**STATE OF
RELIABILITY
2020**

**Local energy-assured thermal
generation minimizes the
impacts of extreme
events.**

**Texas met summer demand in
2019 with better than expected
generator performance.**
