

# Standards Announcement

## Project 2020-02 Modifications to PRC-024 (Generator Ride-through) | PRC-024-4 and PRC-029-1

**Formal Comment Period Open through August 12, 2024**

### **Now Available**

A formal comment period for **PRC-029-1 - Frequency and Voltage Ride-through Requirements for Inverter-based Resources**, is open through **8 p.m. Eastern, Monday, August 12, 2024**.

**This will be the last opportunity for NERC to ballot these projects through traditional mechanisms. The Board may take requisite action during the August 2024 Board of Trustees meeting to ensure directives are met.**

The Standards Committee approved waivers to the Standard Processes Manual at their December 2023 meeting. These waivers were sought by NERC Standards staff for reduced formal comment and ballot periods. This will assist the drafting teams in expediting the standards development process due to firm timeline expectations set by FERC Order 901. *FERC Order 901 was issued under [Docket No. RM22-12-000](#) on October 19, 2023.*

To assist industry in this upcoming comment and ballot period, NERC has released a [Milestone 2 Summary](#) that provides high-level overview of the current state of the associated projects and their interrelationships. The standard drafting team's considerations of the responses received from the previous comment period are reflected in this draft of the standard.

**Note:** PRC-024-4 passed the recent additional ballot (conducted June 28 – July 8, 2024). The drafting team will be moving this standard to a final ballot when the PRC-029-1 ballots open (August 2-12, 2024) as only non-substantive revision(s) were made.

### **Reminder Regarding Corporate RBB Memberships**

Under the NERC Rules of Procedure, each entity and its affiliates is collectively permitted one voting membership per Registered Ballot Body Segment. Each entity that undergoes a change in corporate structure (such as a merger or acquisition) that results in the entity or affiliated entities having more than the one permitted representative in a particular Segment must withdraw the duplicate membership(s) prior to joining new ballot pools or voting on anything as part of an existing ballot pool. Contact [ballotadmin@nerc.net](mailto:ballotadmin@nerc.net) to assist with the removal of any duplicate registrations.

### **Commenting**

Use the [Standards Balloting and Commenting System \(SBS\)](#) to submit comments. An unofficial Word version of the comment form is posted on the [project page](#).

- Contact NERC IT support directly at <https://support.nerc.net/> (Monday – Friday, 8 a.m. - 5 p.m. Eastern) for problems regarding accessing the SBS due to a forgotten password, incorrect credential error messages, or system lock-out.
- Passwords expire every **6 months** and must be reset.
- The SBS **is not** supported for use on mobile devices.
- Please be mindful of ballot and comment period closing dates. We ask to **allow at least 48 hours** for NERC support staff to assist with inquiries. Therefore, it is recommended that users try logging into their SBS accounts **prior to the last day** of a comment/ballot period.

### Next Steps

Additional ballots for the standard and implementation plan, as well as the non-binding poll of the associated Violation Risk Factors and Violation Severity Levels will be conducted **August 2-12, 2024**.

For information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Manager of Standards Development, [Jamie Calderon](#) (via email) or at 404-960-0568 [Subscribe to this project's observer mailing list](#) by selecting "NERC Email Distribution Lists" from the "Service" drop-down menu and specify "Project 2020-02 Modifications to PRC-024 (Generator Ride-through) observer list" in the Description Box.
