Project 2021-06 Modifications to IRO-010 and TOP-003

Nomination Period Open through August 6, 2021

Now Available

Nominations are being sought for **Project 2021-06 Modifications to IRO-010 and TOP-003** drafting team members through **8 p.m. Eastern, Friday, August 6, 2021**.

Use the [electronic form](#) to submit a nomination and contact [Wendy Muller](#) regarding issues with the system. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

Previous drafting or review team experience is beneficial, but not required. A brief description of the desired qualifications, expected commitment, and other pertinent information is included below.

The time commitment for this project is expected to be one meeting per quarter (on average two and a half full working days each meeting) with calls scheduled as needed to meet the agreed-upon timeline the review or drafting team sets forth. Team members may also have side projects, either individually or by subgroup, to present to the larger team for discussion and review. Lastly, an important component of the review and drafting team effort is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful project outcome. NERC is seeking individuals who have subject matter expertise with methods of data entry and data exchange processes.

Next Steps

The Standards Committee is expected to appoint members to the drafting team in August 2021. Nominees will be notified shortly after they have been appointed.
