

Electromagnetic Pulses Task Force

Draft Strategic Recommendations

Comment Period Open through September 30, 2019

[Now Available](#)

Use the [electronic form](#) to submit comments on the **Electromagnetic Pulses (EMP) Task Force Strategic Recommendations Report** by **8 p.m. Eastern, Monday, September 30, 2019**. Contact [Wendy Muller](#) regarding issues with the electronic form. An unofficial Word version of the comment form and additional information can be found on the [EMP Task Force page](#).

Background Information

Protecting the Bulk Power System and assuring the effective reduction of risks to reliability are integral pieces of the Electric Reliability Organization mission. NERC has launched efforts to identify reliability concerns associated with EMPs and potential methods for promoting resilience. A task force was created in April 2019 to first identify key issues and scope areas of improvement for the industry. EMP events may pose a risk to the reliability of the Bulk Power System. In order to better understand and address these potential risks, the EMP Task Force has formulated a catalogue of strategic recommendations and policy matters.

[Subscribe to this project's observer mailing list](#) by selecting "NERC Email Distribution Lists" from the "Applications" drop-down menu and specify "EMP Task Force Observer List" in the Description Box. For more information or assistance, contact Senior Manager, Standards, [Soo Jin Kim](#) (via email) or at 404-446-9742.
