

## Minutes Generator Verification — PRC-019 SDT Meeting

March 26, 2010

1. The lists of attendees are as follows:  
Rick Terrill, Gary Humphries, Bill Shultz,  
Dave Kral, Gary Kruempel Chifong Thomas.
2. The attached documents were discussed. The group decided to leave PRC-019 separate from MOD-025, but suggests that MOD-025 be modified to require a review of the GO's current PRC-019 coordination study results prior to beginning MOD-025 work.
3. The following assignments were made (please submit to Rick by April 5):

Standard section	Team member	Comments
Applicability	Chifong Thomas	Check with Brendan re: wind considerations. Also check with solar folks.
Effective Date	Gary Kruempel	Consider whether periodicity and phase in is still appropriate.
Title/Purpose	Dave Kral	Should verification of settings and limiters be included in purpose?
R2 and M2	Gary Humphries and Bill Shultz	Provide a diagram as an example of the type of information a study result should contain.
R3 and M3	Rick Terrill	Consider whether to include the TOP as a recipient of the results in addition to the TP.

Our next conference call and webinar is scheduled on April 8, 2010 at 12N ET.
