

ATCTDT April 28, 2006 Meeting Notes:

The drafting team held a conference call to review redlined changes to MOD-001-1. The team reviewed the MOD-001-1 and MOD-004-1, MOD-005-1, MOD-008-1, and MOD-009-1 standards. Bill Blevins provided the revised MOD-004-1, MOD-005-1, MOD-008-1, MOD-009-1 as suggested by the SAR drafting team so the ATC drafting team could review the CBM and TRM standards as suggested by the SAR drafting team.

The team spent the remainder of the call reviewing and editing the MOD-001 standard. The purpose of the standard was reworded by the team and the requirements below were added and accepted.

A Transmission Service Provider that crosses multiple Regional Reliability Organization boundaries may develop its own TTC/Flowgate Rating and ATC/AFC methodology and shall get approval for its methodology from each of the respective RROs or from NERC

Each RRO shall post the most recent version of the TTC/Flowgate Rating and ATC/AFC methodology on a publicly accessible web site and each Transmission Service Provider shall either reference or post the most recent version of the TTC/Flowgate Rating and ATC/AFC methodology on its OASIS.

Revisions to the separate TTC and ATC sections were made and the team scheduled another WebEx for the ATCTDT May 2, 2006.

Attendance:

Matthew T. Ansley
Kiko Barredo
Charles Falls
E. Nick Henery
Raymond K Kershaw
