ATCTDT May 16, 2006 Meeting Notes:

The drafting team voted to delay posting the MOD-001-1 standard on May 12. The drafting team held a conference call to review redlined changes to MOD-001-1. The team reviewed the MOD-001-1 and MOD-004-1, MOD-005-1, MOD-008-1, MOD-009-1 standards.

Dennis Kim and Larry Middleton provided revised wording to the comment form which revised question 4 as follows:

There are two identified transfer capability methodologies: (1) Network Response and (2) Rated System Path (as described in the Available Transfer Capability Definitions and Determinations June 1996 Appendix A and Appendix B NERC reference document). Due to the complexity of the differences between the methodologies, the standard drafting team has debated whether or not to separately address the aspects of each methodology in the standard and is soliciting input from the industry on this issue: In developing this standard has the standard drafting team adequately addressed the differences in these methodologies?

Scheduled a WebEx for the ATCTDT May 30, 2006.

Attendance:

Matthew T. Ansley
Kiko Barredo
Charles Falls
E. Nick Henery
Raymond K Kershaw
Dennis Kimm
Ross Kovacs
Laura Lee
Cheryl Mendrala
Larry Middleton
Robert J. Morasco
Narinder K. Saini
Matthew E. Schull
Jerry Smith
Shannon Black
DuShaune Carter
Nathan Schweighart
Terri Kuehneman
Wendy Weathers
