

## **ATCTDT August 3, 2006 Meeting Notes:**

The drafting team held a conference call to review redlined changes to MOD-001-1. The team reviewed rewording regarding Generation Dispatch.

**Generation Dispatch Order.** As necessary to permit a Party to develop a reasonably accurate dispatch for any modeled condition, each party will provide a typical generation dispatch order or the generation participation factors of all units on an affected Control Area basis. The generation dispatch order will be updated as required by changes in the status of the unit; however, a new generation dispatch order need not be provided more often than prior to each peak load season.

Narinder Saini provided suggestions that the group pull out the requirements that were duplicate in the Rated path Method, the Network Response Method and the AFC method. Bill Blevins will reorganize the requirements identified a duplicate and email out a revised MOD-001 standard to the group for consideration August 7 2006. The changes will include revisions to split out the requirements in R1 and R2 and it will include updated Measures and Compliance requirements.

No scheduled webex date was set.

### Attendance:

Matthew T. Ansley
Kiko Barredo
Charles Falls
E. Nick Henery
Raymond K Kershaw
Dennis Kimm
Ross Kovacs
Laura Lee
Cheryl Mendrala
<b>Larry Middleton</b>
Robert J. Morasco
Narinder K. Saini
Matthew E. Schull
Jerry Smith
Shannon Black
DuShaune Carter
Nathan Schweighart
