Standards Announcement

Project 2014-01 Standards Applicability for Dispersed Generation Resources PRC-001-1.1(ii), PRC-019-2, and PRC-024-2

Final Ballots Now Open through January 22, 2015

Now Available

Final ballots for three Project 2014-01 Standards Applicability for Dispersed Generation Resources medium-priority Reliability Standards as identified in the draft White Paper prepared by the Project 2014-01 drafting team are open through **8 p.m. Eastern, Thursday, January 22, 2015.**

The standards being balloted are:

- PRC-001-1.1(X) System Protection Coordination
- PRC-019-2 Coordination of Generating Unit or Plant Capabilities, Voltage Regulating Controls, and Protection
- PRC-024-1(X) Generator Frequency and Voltage Protective Relay Settings

Background information for this project can be found on the project page.

Instructions for Balloting

In the final ballot, votes are counted by exception. Only members of the ballot pool may cast a ballot; all ballot pool members may change their previously cast votes. A ballot pool member who failed to cast a vote during the last ballot window may cast a vote in the final ballot window. If a ballot pool member cast a vote in the previous ballot and does not participate in the final ballot, that member's vote will be carried over in the final ballot.

Members of the ballot pool associated with this project may log in and submit their vote for the standards by clicking <u>here</u>.

Next Steps

The voting results for the standards will be posted and announced after the ballot window closes. If approved, they will be submitted to the Board of Trustees for adoption and then filed with the appropriate regulatory authorities.

For information on the **Standards Development Process**, please refer to the <u>Standard Processes</u> <u>Manual</u>.

For more information or assistance, please contact <u>Katherine Street</u>, Standards Developer, or at 404-446-9702.
