

Standards Announcement **Reminder**

Project 2014-03 Revisions to TOP and IRO Standards

Additional Ballots Now Open through September 19, 2014

[Now Available](#)

Additional Ballots for three **TOP** and six **IRO Reliability Standards**, two definitions, and the implementation plan and non-binding polls of the associated Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs) are open through **8 p.m. Eastern on Friday, September 19, 2014.**

Background information, including a revised white paper and additional supporting documents for this project can be found on the [project page](#).

Instructions for Balloting

Members of the ballot pools associated with this project may log in and submit their vote for the standards, definitions, implementation plan and associated VRFs and VSLs by clicking [here](#).

Note: If a member cast a vote in the initial ballot, that vote will not carry over to the additional ballot. It is the responsibility of the registered voter in the ballot pool to cast a vote again in the additional ballot. To ensure a quorum is reached, if you do not want to vote affirmative or negative, please cast an abstention.

Next Steps

The ballot results will be announced and posted on the project page. The drafting team will consider all comments received during the formal comment period and, if needed, make revisions to the standards and post them for an additional ballot. If the comments do not show the need for significant revisions, the standards will proceed to a final ballot.

For more information on the **Standards Development Process**, please refer to the [Standard Processes Manual](#).
