Ladies and Gentlemen:

Announcement: TPL-001 Web Ex and Conference Call and Correction to Comment Form

The Standards Committee (SC) announces the following:

WebEx and Conference Call to Provide Overview of First Draft of TPL-001-1 — Transmission System Planning Performance Requirements on Wednesday, October 10, 2007

The [Assess Transmission Future Needs](#) Standard Drafting Team (ATFN SDT) will hold a Web Ex and Conference Call on Wednesday, October 10th from 1 to 4 p.m. EDT to present and discuss the proposed requirements in [TPL-001-1](#). The purpose of the proposed standard is to establish Transmission System planning performance requirements within the planning horizon to develop a Bulk Electric System that will operate reliably over a broad spectrum of System conditions and following a wide range of probable Contingencies. The proposed standard consolidates, clarifies, and expands on the requirements that had been in TPL-001-0, TPL-002-0, TPL-003-0 and TPL-004-0, and includes several new definitions.

The WebEx and conference call provides an overview of the proposed requirements to highlight the areas where the proposed requirements differ from the requirements in the existing TPL-001-0 through TPL-004-0 and to provide the opportunity to ask questions about the proposed requirements.

To join the WebEx, click on the following link **a few minutes before 1 p.m.** and select the meeting for the ATFN SDT:

<https://nerc.webex.com/mw03041/mywebex/default.do?siteurl=nerc>
[Password: standards](#)

To join the conference call, dial the following number and, when prompted, provide the code:

Phone: 1-866-740-9357
Code: 1612521

Corrected Comment Form for First Draft of TPL-001-1 — Transmission System Planning Performance Requirements

The [comment form](#) posted with the TPL-001-1 — Transmission System Planning Performance Requirements contained an error on question 29 and has been replaced.

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate. If you have any questions, please contact me at 813-468-5998 or maureen.long@nerc.net.

Sincerely,

Maureen E. Long
