PRC-027-1

[Now Available](#)

A 45-day formal comment period for draft 5 of **PRC-027-1 – Coordination of Protection System Performance During Faults** is open through **8 p.m. Eastern on Friday, May 15, 2015.**

PRC-027-1 clarifies the coordination aspects and incorporates the reliability objectives of Requirements R3 and R4 from PRC-001-1.1(ii); therefore, the System Protection Coordination standard drafting team (SPCSDT) is proposing the retirement of those Requirements from PRC-001-1.1(ii). The SPCSDT has included a redlined version of PRC-001-1.1(ii) and a clean version of PRC-001-3. PRC-001-3 contains the remaining Requirements R1, R2, R5, and R6 as well as updated pro forma language for the “Effective Date” and “Compliance” sections of the standard.
