Standards Announcement

Ballot Pool and Pre-ballot Window

July 27–August 27, 2009

Now available at: <https://standards.nerc.net/BallotPool.aspx>

Project 2009-12: Interpretation of CIP-005-1 for PacifiCorp

An interpretation of standard CIP-005-1 — Cyber Security — Electronic Security Perimeter(s) Section 4.2.2 and Requirement R1.3 for PacifiCorp is posted for a 30-day pre-ballot review. Registered Ballot Body members may join the ballot pool to be eligible to vote on this interpretation **until 8 a.m. EDT on August 27, 2009**.

During the pre-ballot window, members of the ballot pool may communicate with one another by using their “ballot pool list server.” (Once the balloting begins, ballot pool members are prohibited from using the ballot pool list servers.) The list server for this ballot pool is: bp-2009-12_RFI_CIP-005_in@nerc.com.

Next Steps

Voting will begin shortly after the pre-ballot review closes.

Project Background

PacifiCorp requested clarification on the meaning of “associated” cyber assets referenced in Section 4.2.2, the meaning of “endpoint” in Requirement R1.3, and the relationship of an endpoint and an “access point.”

The request and interpretation can be found on the project page:

http://www.nerc.com/filez/standards/Project2009-12_Interpretation_CIP-005-1_PacifiCorp.html

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate
