

## Implementation Plan for Project 2010-11: TPL Table 1 Order

### Prerequisite Approvals

There are no other Reliability Standards or Standard Authorization Requests (SARs), in progress or approved, that must be implemented before this standard can be implemented.

### Revision to Sections of Approved Standards and Definitions

There are no new definitions in the proposed standards.

### Compliance with Standards

Standards	Functions That Must Comply With the Associated Requirements	
	Transmission Planner	Planning Authority
TPL-001-1: System Performance Under Normal (No Contingency) Conditions (Category A)	X	X
TPL-002- <del>1e</del> <u>2b</u> : System Performance Following Loss of a Single Bulk Electric System Element (Category B)		
TPL-003-1: System Performance Following Loss of Two or More Bulk Electric System Elements (Category C)		
TPL-004-1: System Performance Following Extreme Events Resulting in the Loss of Two or More Bulk Electric System Elements (Category D)		

### Effective Dates

The effective date is the date entities are expected to meet the performance identified in this standard.

The application of revised Footnote ‘b’ in Table 1 will take effect on the first day of the first calendar quarter, 60 months after approval by applicable regulatory authorities. In those jurisdictions where regulatory approval is not required, the effective date will be the first day of the first calendar quarter, 60 months after Board of Trustees adoption or as otherwise made effective pursuant to the laws applicable to such ERO governmental authorities. All other

requirements remain in effect per previous approvals. The existing Footnote 'b' remains in effect until the revised Footnote 'b' becomes effective.

All other requirements remain in effect as per previous approvals.
