

Standards Announcement

Project 2007-17.4 PRC-005 FERC Order No. 803 Directive Standard Authorization Request

Informal Comment Period Open through July 10, 2015

[Now Available](#)

A 30-day informal comment period for the revised **Project 2007-17.4 PRC-005 FERC Order No. 803 Directive** Standard Authorization Request (SAR) is open through **8 p.m. Eastern, Friday, July 10, 2015**.

Since the approval of PRC-005-2, a number of standards development projects have resulted in revisions to PRC-005. Currently, there are eight approved or currently proposed PRC-005 Versions, and each Version comes with a separate Implementation Plan. To address this implementation concern, the PRC-005 drafting team requested that NERC align the effective dates of all outstanding PRC-005 Versions, thus simplifying the implementation schedule for this Reliability Standard. Refer to the Implementation Plan Rationale posted on the project page for further information.

Commenting

Use the [electronic form](#) to submit comments on the revised SAR. If you experience any difficulties in using the electronic form, contact [Wendy Muller](#). An unofficial Word version of the comment form is posted on the [project page](#).

For information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Senior Standards Developer, [Stephen Crutchfield](#) (via email), or at (609) 651-9455.
