

# Standards Announcement

## Project 2021-02 Modifications to VAR-002

**Supplemental Drafting Team Nomination Period Open through June 21, 2021**

### **Now Available**

Additional nominations are being sought for **Project 2021-02 Modifications to VAR-002** drafting team members through **8 p.m. Eastern, Monday, June 21, 2021**.

Use the [electronic form](#) to submit a nomination and contact [Wendy Muller](#) regarding issues with the system. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

Drafting team activities include participation in technical conferences, stakeholder communications and outreach events, periodic meetings and conference calls. Approximately one face-to-face meeting per quarter can be expected (on average three full working days each meeting) with conference calls scheduled as needed to meet the agreed-upon timeline the drafting team sets forth. NERC is seeking individuals who possess experience in the following areas:

- Dispersed power producing resources
- Real-time and same day operations planning with a Generator Operator, Generator Owner, and Transmission Operator
- Coordination of Generating Unit or Plant Capabilities, Voltage Regulating Controls, and Protection
- Understanding how data provided by the applicable Generator Operators and Transmission Operators is analyzed and used appropriately

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls. Previous drafting team experience is beneficial but not required.

### **Next Steps**

The Standards Committee is expected to appoint members to the drafting team in July 2021. Nominees will be notified shortly after they have been appointed.
