

Standards Announcement

Project 2017-01 Modifications to BAL-003-1.1

Drafting Team Nomination Period Open through March 28, 2018

Now Available

Additional nominations are being sought for members of the Project 2017-01 Modifications to BAL-003-1.1 standard drafting team through 8 p.m. Eastern, Wednesday, March 28, 2018.

Use the <u>electronic form</u> to submit a nomination. If you experience any difficulties using the electronic form, contact <u>Nasheema Santos</u>. An unofficial Word version of the nomination form is posted on the <u>Standard Drafting Team Vacancies</u> page and the <u>project page</u>.

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

The time commitment for this project is expected to be two face-to-face meetings per quarter (on average two full working days each meeting) with conference calls scheduled as needed to meet the agreed upon timeline the team sets forth. Team members may also have side projects, either individually or by sub-group, to present for discussion and review. Lastly, an important component of the standard drafting team (SDT) effort is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful ballot.

We are seeking three (3) to four (4) additional members from the industry to participate on the standard drafting team; but in particular, we are seeking individuals who have experience and expertise in the generator segment of the industry. Experience with developing standards inside or outside (e.g., IEEE, NAESB, ANSI, etc.) of the NERC process is beneficial, but is not required, and should be highlighted in the information submitted, if applicable.

Previous drafting team experience is beneficial but not required. See the project page and nomination form for additional information.

Next Steps

NERC staff will present nominations to the Standards Committee in April 2018. Nominees will be notified shortly after the appointments have been made.

For information on the Standards Development Process, refer to the Standard Processes Manual.

For more information or assistance, contact Standards Developer, <u>Laura Anderson</u> (via email), or at (404) 446-9671 or Principal Technical Advisor, <u>Darrel Richardson</u> (via email) or at (609) 613-1848.
