

Standards Announcement

Project 2022-05 Modifications to CIP-008 Reporting Threshold

Supplemental Nomination Period Open through September 17, 2025

[Now Available](#)

Nominations are being sought for supplemental drafting team members through **8 p.m. Eastern, Wednesday, September 17, 2025.**

Use the [electronic form](#) to submit a nomination. Contact [Linda Jenkins](#) regarding issues using the electronic form. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

Time commitments for most projects include conference calls scheduled on a regular basis (typically every other week) as needed. Team members can agree to individual or subgroup assignments, hold separate meetings, and present to the full drafting team for discussion and review. Another important component of quality reviews and drafting team efforts is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful project outcome.

Previous drafting team experience is beneficial but not required. See the project page and nomination form for additional information.

Project Priority

Each project will be developed according to that project's priority status. While each standard project addresses particular industry needs, some will be identified as a higher priority. A high priority project can include a strict timeline, which may be needed to effectively respond to a FERC Directive or other factors determined by the NERC Board of Trustees. A high priority project may also need to increase the frequency of meetings at any time throughout the development process to account for project timeline needs. Similarly, low priority projects may adjust to less frequent meetings to reallocate resources to high priority projects.

This project has not been identified as high priority at this time.

Next Steps

The Standards Committee is expected to appoint members to the drafting team in November 2025. Nominees will be notified shortly after they have been appointed.

For more information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Standards Developer, [Josh Blume](#) (via email), or at (470) 755-0346. [Subscribe to this project's observer mailing list](#) by selecting "NERC Email Distribution Lists" from the "Service" drop-down menu and specify "Project 2022-05 Modifications to CIP-008 Reporting Threshold" in the Description Box.
