

# Standards Announcement

## Project 2023-02 Performance of IBRs

**Nomination Period Open through March 23, 2023**

### [Now Available](#)

Nominations are being sought for **Project 2023-02 Performance of IBRs** drafting team members through **8 p.m. Eastern, Thursday, March 23, 2023**.

Use the [electronic form](#) to submit a nomination. Contact [Cindy Jackson](#) regarding issues using the electronic form. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

The time commitment for this project is expected to be two face-to-face meetings per quarter (on average two full working days each meeting) with conference calls scheduled as needed to meet the agreed upon timeline the review or drafting team sets forth. Team members may also have side projects, either individually or by sub-group, to present to the larger team for discussion and review. Lastly, an important component of the review and drafting team effort is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful project outcome.

Previous drafting team experience is beneficial but not required. See the project page and nomination form for additional information.

### **Next Steps**

The Standards Committee is expected to appoint members to the drafting team in May 2023. Nominees will be notified shortly after they have been appointed.

For more information on the Standards Development Process, refer to the [Standard Processes Manual](#).
