

# Standards Announcement

## Project 2023-07 Transmission System Planning Performance Requirements for Extreme Weather – Phase II

**Supplemental Drafting Team Nomination Period Open through July 17, 2025**

### [Now Available](#)

Nominations are being sought for supplemental drafting team members through **8 p.m. Eastern, Thursday, July 17, 2025**.

Use the [electronic form](#) to submit a nomination. Contact [Cindy Jackson](#) regarding issues using the electronic form. An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

Time commitments for this project include a virtual meeting every two weeks (on average two hours each meeting) and more frequent conference calls may be scheduled to complete documents prior to a posting, webinar, etc. Team members can agree to individual or subgroup assignments, hold separate meetings, and present to the full drafting team for discussion and review. Another important component of quality reviews and drafting team efforts is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful project outcome.

Previous drafting team experience is beneficial but not required. See the nomination form and project page for additional information.

### **Next Steps**

The Standards Committee is expected to appoint members to the drafting team in August 2025. Nominees will be notified shortly after they have been appointed.

For more information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Standards Developer, [Chido Osueke](#) (via email) or at 470-727-4729. [Subscribe to this project's observer mailing list](#) by selecting "NERC Email Distribution Lists" from the "Service" drop-down menu and specify "Project 2023-07 Transmission Planning Performance Requirements for Extreme Weather observer list" in the Description Box.
