

## Standards Announcement

### Project 2015-10 Single Points of Failure Standard Authorization Request (SAR)

**SAR Drafting Team Nomination Period Open through December 1, 2015**

#### [Now Available](#)

Nominations are being sought for SAR drafting team members through **8 p.m. Eastern, Tuesday, December 1, 2015.**

Use the [electronic form](#) to submit a nomination. If you experience any difficulties in using the electronic form, contact [Wendy Muller](#). An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in the drafting team meetings if appointed by the Standards Committee. If appointed, you are expected to attend most of the face-to-face team meetings, as well as participate in all the team meetings held via conference calls.

The time commitment for this project is expected to be up to two face-to-face meetings per quarter (on average two full working days each meeting) with conference calls scheduled as needed to meet the agreed-upon timeline the team sets forth. Drafting teams also will have side projects, either individually or by subgroup, to present to the larger team for discussion and review. Lastly, an important component of the drafting team efforts is outreach. Members of the team should be conducting outreach during development prior to posting to ensure all issues can be discussed and resolved.

Previous drafting team experience is beneficial, but not required. A brief description of the desired qualifications, expected commitment, and other pertinent information is included on the project page and the nomination form.

#### **Next Steps**

The Standards Committee is expected to appoint members to the team in December 2015. Nominees will be notified shortly after they have been appointed.

For information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Standards Developer, [Katherine Street](mailto:katherine.street@nerc.com) (via email) or at (404) 446-9702.
