

Meeting Notes

Periodic Review Standing Review Team

Standards Grading

June 10, 2022 | 2:00 - 4:00 p.m. Eastern

Conference Call with Web Access

Agenda Items

Administrative – The NERC Antitrust Guidelines and disclaimer were read. All Periodic Review Standing Review Team (PRSRT) members were in attendance.

Opening remarks – Amy Casuscelli thanked the PRSRT for providing input for the standards grading process this year, and the guest observers' attendance.

Background – Chris Larson shared an overview of the PRSRT background and process, current status of the project, and next steps. He referenced the [Frequently Asked Questions](#), available on the [project page](#).

Review of industry comments – The PRSRT reviewed the responses received from industry during the informal comment period. Several of the comments were supportive of the overall grades, while there were a few commenters that made suggested changes. The PRSRT adjusted their comments and grading for PER-003, PER-005, and PER-006, however felt the TPL-007 grades and associated rationale/comments should remain the same. The PRSRT believed the intent of several industry comments related to TPL-007 was already captured in the grades and rationale.

Finalize grades– The PRSRT finalized the 2022 Standards Grades, which will be posted on the project page. The summary grades will be appended to the upcoming Reliability Standards Development Plan.

Meeting adjourned at 3:15 p.m. Eastern
