**Re: NERC FFT Informational Filing  
FERC Docket No. RC13-\_\_-000**

Dear Ms. Bose:

The North American Electric Reliability Corporation (NERC) hereby provides the attached Find, Fix, Track and Report<sup>1</sup> (FFT Spreadsheet) in Attachment A regarding 22 Registered Entities<sup>2</sup> listed therein,<sup>3</sup> in accordance with the Federal Energy Regulatory Commission's (Commission or FERC) rules, regulations and orders, as well as NERC Rules of Procedure including Appendix 4C (NERC Compliance Monitoring and Enforcement Program (CMEP)).<sup>4</sup>

This FFT resolves 38 possible violations<sup>5</sup> of 13 Reliability Standards that posed a minimal risk to the reliability of the bulk power system (BPS). In all cases, the possible violations contained in this FFT have been found and fixed, so they are now described as "remediated issues." A certification of completion of the mitigation activities has been submitted by the respective Registered Entities.

As discussed below, this FFT includes 38 remediated issues. These FFT remediated issues are being submitted for informational purposes only. The Commission has encouraged the use of streamlined

enforcement processes for occurrences that posed a minimal risk to the BPS.<sup>6</sup> Resolution of these minimal risk possible violations in this reporting format is an appropriate disposition of these matters, and will help NERC and the Regional Entities focus on the more serious violations of the mandatory and enforceable NERC Reliability Standards.

### **Statement of Findings Underlying the FFT**

The descriptions of the remediated issues and related risk assessments are set forth in Attachment A.

This filing contains the basis for approval by NERC Enforcement staff, under delegated authority from the NERC Board of Trustees Compliance Committee (NERC BOTCC), of the findings reflected in Attachment A. In accordance with Section 39.7 of the Commission's regulations, 18 C.F.R. § 39.7 (2011), each Reliability Standard at issue in this FFT is identified in Attachment A.

Text of the Reliability Standards at issue in the FFT may be found on NERC's website at <http://www.nerc.com/page.php?cid=2|20>. For each respective remediated issue, the Reliability Standard Requirement at issue is listed in Attachment A.

### **Status of Mitigation<sup>7</sup>**

As noted above and reflected in Attachment A, the possible violations identified in Attachment A have been mitigated. The respective Registered Entity has submitted a certification of completion of the mitigation activities to the Regional Entity. These mitigation activities are subject to verification by the Regional Entity via an audit, a spot check, a random sampling, a request for information, or otherwise. These activities are described in Attachment A for each respective possible violation.

## Statement Describing the Resolution<sup>8</sup>

### Basis for Determination

Taking into consideration the Commission's direction in Order No. 693, the NERC Sanction Guidelines and the Commission's July 3, 2008 Guidance Order, the October 26, 2009 Guidance Order and the August 27, 2010 Guidance Order,<sup>9</sup> NERC Enforcement staff under delegated authority from the NERC BOTCC, approved the FFT based upon its findings and determinations, as well as its review of the applicable requirements of the Commission-approved Reliability Standards, and the underlying facts and circumstances of the remediated issues.

### Notice of Completion of Enforcement Action

In accordance with section 5.10 of the CMEP, and the Commission's March 15, 2012 CEI Order, provided that the Commission has not issued a notice of review of a specific matter included in this filing, notice is hereby provided that, sixty-one days after the date of this filing, enforcement action is complete with respect to all remediated issues included herein and any related data holds are released only as to that particular remediated issue.

Pursuant to the Commission order referenced above, both the Commission and NERC retain the discretion to review a remediated issue after the above referenced sixty-day period if it finds that FFT treatment was obtained based on a material misrepresentation of the facts underlying the FFT matter. Moreover, to the extent that it is subsequently determined that the mitigation activities described herein were not completed, the failure to remediate the issue will be treated as a continuing possible violation of a Reliability Standard requirement that is not eligible for FFT treatment.

### Request for Confidential Treatment of Certain Attachments

Certain portions of Attachment A include confidential information as defined by the Commission's regulations at 18 C.F.R. Part 388 and orders, as well as NERC Rules of Procedure including the NERC CMEP Appendix 4C to the Rules of Procedure. This includes non-public information related to certain
