**Re: NERC Spreadsheet Notice of Penalty
FERC Docket No. NP15-__-000**

Dear Ms. Bose:

The North American Electric Reliability Corporation (NERC) hereby provides the attached Spreadsheet Notice of Penalty¹ (Spreadsheet NOP) in Attachment A,² in accordance with the Federal Energy Regulatory Commission's (Commission or FERC) rules, regulations and orders, as well as NERC Rules of Procedure including Appendix 4C (NERC Compliance Monitoring and Enforcement Program (CMEP)).³

The Spreadsheet NOP resolves 20 violations⁴ of 7 Reliability Standards. In order to be a candidate for inclusion in the Spreadsheet NOP, the violations are those that posed a minimal or moderate risk to the reliability of the bulk power system (BPS).

The violations at issue in the Spreadsheet NOP are being filed with the Commission because the Regional Entities have respectively entered into settlement agreements with, or have issued Notices of Confirmed Violations (NOCVs) to, the Registered Entities identified in Attachment A and have resolved all outstanding issues arising from preliminary and non-public assessments resulting in the Regional

See 18 C.F.R. § 39.7(c)(2). See also *Notice of No Further Review and Guidance Order*, 132 FERC ¶ 61,182 (2010).

² Attachment A is an excel spreadsheet.

³ See 18 C.F.R. § 39.7(c)(2).

⁴ For purposes of this document, each violation at issue is described as a "violation," regardless of its procedural posture and whether it was a possible, alleged or confirmed violation.

Entities' determination and findings of the enforceable violation of the Reliability Standards identified in Attachment A. As designated in the attached spreadsheet, some of the Registered Entities have admitted to the violations, while the others have indicated that they neither admit nor deny the violations and have agreed to the proposed penalty as stated in Attachment A or did not dispute the violations and proposed penalty amount stated in Attachment A, in addition to other remedies and mitigation actions to mitigate the instant violations and ensure future compliance with the Reliability Standards. Accordingly, all of the violations, identified as NERC Violation Tracking Identification Numbers in Attachment A, are being filed in accordance with the NERC Rules of Procedure and the CMEP.

As discussed below, this Spreadsheet NOP resolves 20 violations. NERC respectfully requests that the Commission accept this Spreadsheet NOP.

Statement of Findings Underlying the Alleged Violations

The descriptions of the violations and related risk assessments are set forth in Attachment A.

This filing contains the basis for approval in accordance with Section 39.7 of the Commission's regulations, 18 C.F.R. § 39.7 (2015). Each Reliability Standard at issue in this Notice of Penalty is set forth in Attachment A.

Text of the Reliability Standards at issue in the Spreadsheet NOP may be found on NERC's web site at <http://www.nerc.com/page.php?cid=2|20>. For each respective violation, the Reliability Standard Requirement at issue and the applicable Violation Risk Factor are set forth in Attachment A.

Unless otherwise detailed within the Spreadsheet NOP, the Registered Entities were cooperative throughout the compliance enforcement process; there was no evidence of any attempt to conceal a violation or evidence of intent to do so. In accordance with the Guidance Order issued by FERC concerning treatment of repeat violations and violations of corporate affiliates, the violation history for the Registered Entities and affiliated entities who share a common corporate compliance program is detailed in Attachment A when that history includes violations of the same or similar Standard. Additional mitigating, aggravating, or extenuating circumstances beyond those listed above are detailed in Attachment A.

Status of Mitigation⁵

The mitigation activities are described in Attachment A for each respective violation. Information also is provided regarding the dates of Registered Entity certification and the Regional Entity verification of such completion where applicable.

Statement Describing the Proposed Penalty, Sanction or Enforcement Action Imposed⁶

Basis for Determination

Taking into consideration the Commission's direction in Order No. 693, the NERC Sanction Guidelines and the Commission's July 3, 2008 Guidance Order, the October 26, 2009 Guidance Order, the August 27, 2010 Guidance Order and the March 15, 2012 Compliance Enforcement Initiative Order,⁷ the violations in the Spreadsheet were approved by NERC Enforcement staff under delegated authority from the NERC Board of Trustees Compliance Committee. Such considerations include the Regional Entities' imposition of financial penalties as reflected in Attachment A, based upon its findings and determinations, the NERC Enforcement staff's review of the applicable requirements of the Commission-approved Reliability Standards, and the underlying facts and circumstances of the violations at issue.

Pursuant to Order No. 693, the penalties will be effective upon expiration of the 30-day period following the filing of this Notice of Penalty with FERC, or, if FERC decides to review any specific penalty, upon final determination by FERC.

⁵ See 18 C.F.R § 39.7(d)(7).
